David Knechtel,

I. GENERAL FUND (EXHIBIT 3)

1. Fund Balance Comparison

KENT SCHOOL DISTRICT NO. 415
 Financial Analysis Report
 For the Month Ended December 2020

The year to date ending fund balance December 2020 improved by \$27 million compared to December 2019.

However, it is important to note that much of this improvement is due to the increased beginning fund balance between the years, as expenditures were outpacing revenues so far for the year by about \$700,000. In other words, increased expenditures are drawing down on the increase in fund balance between the years, so far for this year.

In addition, transportation funding and enrollment are two revenue variables that are, as yet, unrealized. The legislated formula for transportation funding may generate a payback of state transportation revenue due to a lack of to and from school ridership. The current enrollment decrease is likely to generate a payback of state apportionment revenue, as well, under the legislated apportionment formula.

The next table shows the reconciliation between the district's cash and investments and the district's fund balance in the general fund December 2020. This shows the interrelationship between the district's fund balance and the district's primary asset of cash and investments that can be drawn on to meet the immediate obligations of the district.

Net Cash & Investments per County/Bank	\$ 73,737,947
Plus: Other Assets	
Tax Receivable	1,182,519
Due from Other Funds/Govt.	414,610
Receivables	156,574
Inventory	746,785
Other Items	23,538
Total Assets	76,261,973
Less: Liabilities	
Accounts Payable and other obligations	(3,876,530)
Interfund Loans Payable	
Salaries, Benefits, & Payroll Taxes	(17,280,864)

KENT SCHOOL DISTRICT NO. 415
Financial Analysis Report
For the Month Ended December 2020

State, General Purpose

This revenue comes mostly from two sources: apportionment and local effort assistance (LEA)

- x Apportionment is the revenue received through a state funding formula that is based on the average number of students enrolled and allocations of staff units from the prototypical school model. Basic and career technical education revenues are included in this revenue.
- x Local effort assistance (LEA) is revenue provided by the state to equalize local levy rates for districts with a proportionally lower assessed valuation tax base.

Minimal state local effort assistance (LEA) was expected and only \$356,605 has been received to date. Apportionment has increased by about \$1.2 million to date. With the drop in enrollment for Kent School District, this increase in apportionment is expected to be shaved. Apportionment is adjusted in January to actual enrollment and the district will see the effect of the drop at that time.

State, Special Purpose

This revenue is primarily comprised of grants and includes funding for Special Education, Learning Assistance, Bilingual Education, Highly Capable, Nutrition Services and Transportation. It is based on various formulas for students receiving services from specific programs. This revenue category fluctuates year to year.

The state special education funding primarily explains this current, large increase in state special purpose funding of about \$1.5 million. However, with the drop in district enrollment, the district is likely to see the state special education drop, as well. This funding will be adjusted to actual in January, as well, and the district will see any effect at that time.

State transportation funding continues to decrease, and currently is about \$1 million less than last year at this time. How this transportation funding will end up is unsure at this time, due to the statutory state funding formula based on student ridership and students are not being transported to school. For now, transportation is based on last fall and spring ridership counts. The state will be adjusting the transportation funding to actual in February, and the district will see an effect at that time.

Funding for various other state programs have increased slightly as well, up to this time period, to offset the differences in special ed and transportation funding.

KENT SCHOOL DISTRICT NO. 415
Financial Analysis Report
For the Month Ended December 2020

This revenue fluctuates and is difficult to project. Currently, no revenues have been received here.

Federal, Special Purpose

This revenue is provided by the federal government to support programs for special needs students and others needing help with reading and math (federal grants).

The majority of federal revenue is received on a reimbursement basis; the district submits claims for reimbursement as expenditures are incurred. Thus, over time, there is no net impact to the district's budget.

Title I (+\$300,000) and federal CARES/ESSER special funding to mitigate COVID 19 challenges (+\$500,000) has increased from this time last year. Federal revenues are down, which, all together, explains the nearly \$600,000 increase in federal special purpose funding.

Revenue From Other Districts

This revenue reflects reimbursements received for special education services rendered to students from other school districts. No funds from other districts have been received, yet, for this year.

Revenue From Other Agencies

This revenue relates to agreements and partnerships with governmental agencies and businesses to help fund educational programs. Such agreements vary from year to year.

The district expected to receive revenue of approximately \$340,000 in September for claims that had been filed for the SBBRIT Best Start grants. These revenues were accrued back to the fiscal year ending 08/31/2020, where the expenditures were incurred, which is a normal accounting practice. However, only approximately \$224,000 of these funds have come in. This anomaly has contributed to the approximate \$105,000 revenue deficit shown in this category. This matter is being researched further.

Revenue From Other Financing Sources

This revenue relates to sales of surplus equipment and interfund transfers. This revenue necessarily fluctuates from year to year. Revenue from other financing sources was \$77,931 through the month of December 2020.

KENTSCHOOL DISTRICT NO. 415
 Financial Analysis Report
 For the Month Ended December 2020

3. Expenditures and Other Financing Uses

Year to date expenditures and other financing uses for this month were \$132,448,743 million, which is at this time approximately \$7.1 million or almost 6% higher than last year. This is primarily a result of increases in expenditures for salaries (2% - 8% higher) and payroll related benefits (23% higher).

Comparisons of the current month's expenditures to the same period last year by object and variance are shown below:

December 2019	Percent of Total	December 2020	Percent of Total	Variance
---------------	---------------------	---------------	---------------------	----------

A comparison of medical benefits for December of 2019 to December of 2020 will reveal the primary reason for this large jump in benefits, as December 2019 and January 2020 were a time transition from the old medical benefits plan to the new School Employees Benefit Board (SEBB) medical benefits, and there were timing differences in recording expenditures between the two plans. Under the old plan, the district paid ahead and under the new SEBB plan, the district pays for benefits during the month the benefits are due and available to the employees. This change has resulted in a month during the past fiscal year (2019) in which the district did not incur any benefit expenditures. For the past fiscal year (2019), 11 months of expenditures were recorded for such benefit expenditures, due to the transition from paying a month ahead. For this current fiscal year (2020), the district will be recording 12 months of benefit expenditures.

Supplies and travel are notably down, due to the remote learning environment.

KENT SCHOOL DISTRICT NO. 415
Financial Analysis Report
For the Month Ended December 2020

II. ASSOCIATED STUDENT BODY FUND (EXHIBIT 4)

This fund accounts for monies raised by associated student bodies of the district. As a special revenue fund, amounts within the ASB Fund may only be used for those purposes that relate to the operation of the Associated Student Body of the District.

With ASB, there isn't much activity due to the COVID-19 pandemic and remote learning environment. Last year at this time, revenues were \$33,446 and expenditures were \$649,460. ASB revenue and expenditures for this current year through December 2020 were respectively only \$82,614 and \$59,122. This current activity results in a slight change to the ASB fund balance and the current ASB fund balance has increased from the ending balance for last year a little over \$2.0 million total.

III. DEBT SERVICE FUND (EXHIBIT 5)

The Debt Service Fund is used to accumulate resources (property taxes, investment earnings, transfers from other funds to pay debts) to meet the district's long-term obligations.

KENTSCHOOL DISTRICT NO. 415
Financial Analysis Report
For the Month Ended December 2020

construction priorities of projects. Therefore, comparison between actual and budget for specific projects is not meaningful.

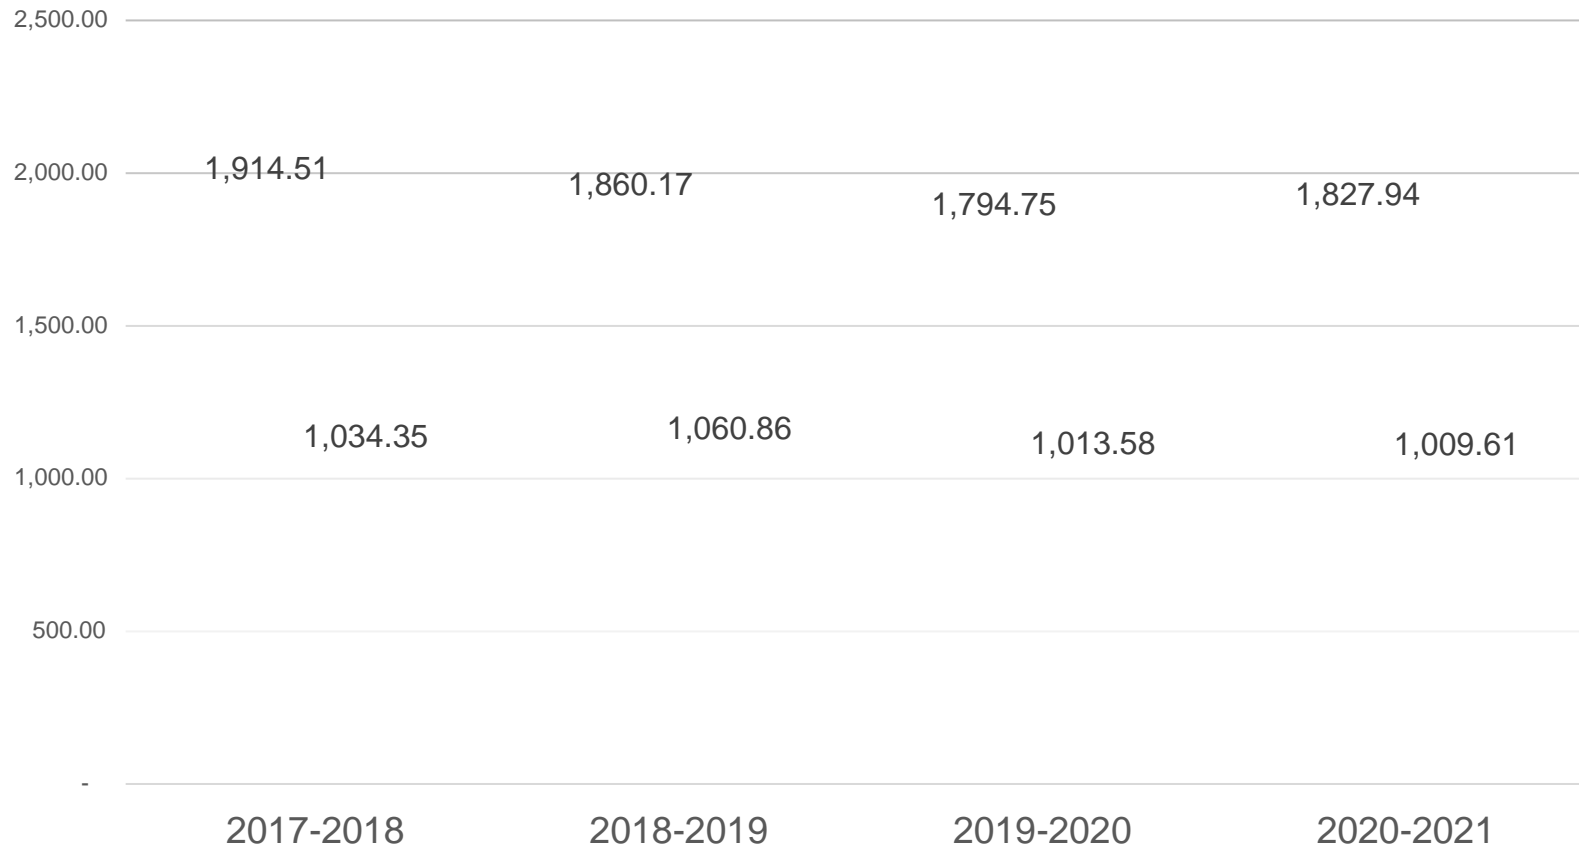

V. TRANSPORTATION VEHICLE FUND (EXHIBIT 7)

This fund is primarily intended to account for the purchase of buses.

The district did receive approximately \$257,000 from the state Dept of Ecology towards the purchase of electric buses. In the end, the district should receive approximately \$850,000 from the state for this purpose. The district obligated approximately \$1.2 million for the 3 electric buses.

The transportation fund does owe the general fund \$300,000 in April for cash used to
